Vadodara, Gujarat 390019 | +91 9875115061 | v.chira.007@gmail.com | [GitHub](#) | [LinkedIn](#) | [LeetCode](#)

PROFESSIONAL SUMMARY

Motivated Full-Stack Developer and 3rd-year B.E. Computer Science student with hands-on experience building production-grade MERN stack applications. Proven ability to architect end-to-end systems — from REST APIs and role-based authentication to responsive, modern UIs. Passionate about clean code, real-world problem-solving, and continuous learning.

EDUCATION

B.E. in Computer Science and Engineering

Maharaja Sayajirao University of Baroda (MSU Baroda) | 2024 – 2027

Currently in 3rd Year

Diploma in Information Technology

Parul University

2021 – 2024

Class 10th: **91.29 Percentile**

TECHNICAL SKILLS

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, Spring Boot, Appwrite, Tomcat Server

Languages: Java, JavaScript

Databases: MySQL, MongoDB

Core Concepts: OOP, DSA, DBMS

APIs & Payments: RESTful APIs, Razorpay, JDBC

DevOps & Tools: Git, GitHub, Postman

PROJECTS

PlayLoud – Online Music Streaming Platform

React.js, Node.js, Express.js, Appwrite, Razorpay, Tailwind CSS

- Built a full-stack music streaming platform with authentication, personalized playlists, and real-time updates
- Integrated Razorpay for premium subscription payments; used Appwrite for auth, database, and storage
- Designed responsive UI with a persistent music player, liked songs, search, and recommendations

DayFlow – Human Resource Management System

MERN Stack (MongoDB, Express.js, React, Node.js)

- Developed a full-featured HRMS managing employees, attendance, payroll, and leave workflows
- Implemented role-based JWT authentication (Admin, HR, Employee) with protected API routes
- Built analytics dashboards with real-time notifications and a responsive, modern UI/UX

RentFlow – Rental Management System

MERN Stack, Razorpay

- Built an ERP-style rental platform supporting vendor, customer, and admin role-based dashboards
- Implemented product listing, booking logic, full order lifecycle, and invoice generation
- Integrated Razorpay payment gateway; project advanced to offline round at Odoo × GCET Hackathon 2026

ACHIEVEMENTS & CERTIFICATIONS

Hack-A-Throne 2025 – MSU Baroda (Team Leader)

- Led a team to build an AI-powered Event Management Portal within a 32-hour hackathon window
- Implemented AI-based vendor recommendations and image-based search with multi-role dashboards under time pressure
- Demonstrated strong leadership, cross-functional collaboration, and rapid end-to-end full-stack delivery

Odoo × GCET Hackathon 2026

- Built RentFlow — a complete rental management platform — and advanced from virtual screening to the offline final round
- Implemented ERP-style workflows including quotation management, order lifecycle, and Razorpay payment integration
- Gained hands-on experience in multi-vendor platform architecture, real-world ERP design, and competition-grade delivery
